

## Storytime With Hamas: Featuring Ms. Rachel

### The Lie:

- Ms. Rachel loves *all* children - she can't be Antisemitic!

### The Truth:

- Ms. Rachel may have a beloved children's TV show, but that does not make her immune from scrutiny when she spreads misinformation, aligns with Hamas-linked networks, or amplifies rhetoric rooted in modern blood libel.

### Background:

- In December 2025, Ms. Rachel was named as a finalist for *Antisemite of the Year* by watchdog group, Stop Antisemitism, after over two years of spreading anti-Israel misinformation, elevating Hamas-aligned voices, and dismissing Jewish concerns.
- Her public persona as a gentle children's educator has shielded her from scrutiny — even as her rhetoric has reached millions and helped mainstream antisemitic narratives.

### Truth Explained

- **Ms. Rachel has built a long-term record of spreading Hamas-aligned misinformation while erasing Israeli child victims.** For years, she has amplified debunked atrocity images, adopted Hamas casualty narratives, and dismissed concerns from Jewish parents — rhetoric that mirrors the mechanics of modern blood libel. <https://aish.com/ms-rachel-and-the-mainstreaming-of-antisemitism/>

- **She became a spokesperson for the Palestine Children's Relief Fund (PCRF), a U.S. nonprofit with extensive Hamas-linked partnerships.** PCRF operates inside **Al-Rantisi Children's Hospital in Gaza City**, where the IDF uncovered a Hamas military compound beneath the pediatric ward — including explosives, suicide vests, operational materials, and one of the **motorcycles used to carry out the attacks on October 7**. PCRF collaborates with Hamas-run ministries and extremist **Zakat committees** — “charitable” bodies repeatedly identified by Western authorities as financial pipelines for Hamas. Senior PCRF staff have openly praised “resistance” and accused Israel of “genocide.” [https://ngo-monitor.org/ngos/palestine\\_children\\_s\\_relief\\_fund\\_ohio/](https://ngo-monitor.org/ngos/palestine_children_s_relief_fund_ohio/)
- **Ms. Rachel repeated the false UN claim that “14,000 babies will die in 48 hours,” despite corrections.** The real UN projection estimated **14,100 severe malnutrition cases over 11 months**, not 48 hours. BBC and PBS corrected the error. Ms. Rachel never did, allowing the false claim to spread as proof of deliberate Israeli cruelty. <https://www.pbs.org/newshour/world/how-one-un-leaders-mistaken-timeline-caused-confusion-about-gaza-childrens-starvation-risk>
- **She amplified a staged “starving baby” photo and blamed Israel for intentional child starvation.** The child suffered from a congenital disorder and the photo was staged. The narrative — that Jews purposely starve babies — invokes one of the oldest antisemitic blood libels. <https://aish.com/ms-rachel-and-the-mainstreaming-of-antisemitism/>
- **She collaborated with Motaz Azaiza, a Hamas propagandist who celebrated October 7 and praised Yahya Sinwar.** Inviting him onto her platform normalized a figure who refuses to condemn the murder, torture, and kidnapping of Israeli children. <https://honestreporting.com/the-dangerous-direction-of-ms-rachels-pro-palestinian-misinformation/>
- **Her advocacy excludes Israeli children unless publicly pressured.** On October 7 — while Israeli children were being murdered, burned alive, and dragged into tunnels — she posted a hair tutorial. Only after backlash did she briefly acknowledge Israeli victims, then returned to exclusively Gaza-centred content. <https://www.timesofisrael.com/social-media-star-educator-ms-rachel-draws-ire-over-appeals-for-gazan-children/>
- Her **Social Media Posts routinely generate replies filled with antisemitic rhetoric, creating an online ecosystem where hostility toward Jews thrives unchecked.** She has allowed this environment to flourish, even as Jewish parents raise concerns about the hatred appearing under her content. <https://www.rootsmetals.com/blogs/news/gaslighting-and-a-dash-of-blood-libel-ft-ms-rachel>

- **A true child advocate would speak about what harms Palestinian children most: UNRWA indoctrination. She never does.** A 2023 UN Watch / IMPACT-se review documented **300+ pages** of UNRWA-produced lessons glorifying terrorists, urging jihad, denying Israel's existence, and spreading violent antisemitism. **47 UNRWA teachers** were caught calling for the murder of Jews; **133 more** praised terrorist attacks on social media. If Ms. Rachel genuinely cared about children's education and safety, she would confront the radicalization shaping their future. She chooses silence. <https://unwatch.org/un-teachers-call-to-murder-jews-reveals-new-report/>

### Quotes:

- “Since 10/7, Ms. Rachel has pushed Hamas propaganda to millions – sharing debunked images, inflated casualty claims, and almost entirely ignoring Israeli child victims.” - StopAntisemitism
- “Ms. Rachel has repeatedly spread falsehoods about Israel, amplified debunked images, and platformed a Hamas defender to millions of followers.” - HonestReporting
- “When a public figure speaks about protecting children, and the only children consistently absent from her compassion are ours, it is its own kind of heartbreak.” - Times of Israel

### Takeaway:

December 7, 2025

Loving children does not excuse spreading lies — and Ms. Rachel's misinformation has fueled antisemitism, empowered Hamas narratives, and erased Israeli victims.
